OPTIMAL LEARNING CENTER INFANTS

6 Weeks- 14 Months
Sample Program
Brochure

In planning the non-mobile Infant Program, we keep in mind that these VIP'S (Very Important Persons) are unique. They have special ways of learning about their social, psychological and physical environment, all three of which are responsible for their learning and development. As the teachers plan and implement the program, they keep the five (5) developmental domains (i.e. cognitive, language, social, emotional, sensory and physical) in mind.

Teachers involve parents in the program
