

# Optimal Learning Centers ...

## The Right Place for your child to Prepare for Lifelong Learning

The Optimal Learning Center education and care facilities offer innovative programs to meet the needs of your busy family. With all our programs, your children will grow and learn important new skills every day in a safe, loving environment. They will learn through fun and educational activities to prepare for school. Some of our programs are NAEYC or MSDE accredited. We offer French, Spanish and STEM (Science, Technology, Engineering, Math) classes.

### INFANTS & TODDLERS

Six weeks to Two years. We use the Comprehensive Infant Curriculum which is a complete interactive curriculum which keeps parents involved in what the children learn.

### HALF DAY and FULL DAY PRESCHOOL

- Two-Three year old classes with morning and afternoon sessions
- We use the Comprehensive Toddler Curriculum which is a complete interactive curriculum for Toddlers from 18-36 months
- Enrichment program for academically advanced children in Science, Math, and Language Arts.

### FULL DAY PRE-KINDERGARTEN

- Same outstanding curriculum as the half day students
- Additional enrichment activities and special programs such as SPARK (Sports, Play and Recreation for Kids)
- Hours that fit your busy schedule: 6:30 AM - 6:30 PM
- A warm, loving home-away from home environment

Nationally established and well researched Houghton Mifflin Curriculum is used.

We are aware that some children may be left out of the Kindergarten registration. We also know that some of these children may be enroller in the K class under the Early Admissions process. Thus, we offer a program of instruction that may prepare the child for either kindergarten or first grade the following year. We also assess the children for either Kindergarten or first grade readiness using a School nationally accepted scholastic testing program.

- Heavy emphasis on Science, Math & Reading
- Professional teaching staff
- Age-appropriate, stimulating equipment
- French and Spanish lessons included as part of Instructional program (at no additional cost)

### BEFORE AND AFTER SCHOOL PROGRAM

First through eight grade program includes, but is not limited to: SPARKS (Sports, Play and Recreation for Kids), STEM (Science, Technology, Engineering, Math) and memberships to various interest clubs.

### SUMMER PROGRAM

A wide variety of optional programs

- Soccer
- Ballet
- Basketball
- Swimming
- Jump Bunch
- Creative Arts
- Small classes
- Outdoor playgrounds
- Visual and Performing Arts
- Practical Life Skills and Science
- Field trips and special in-house programs
